ADD-ON ITEMS

ResMed S9 Elite™

- Premium CPAP device in ResMed's S9 Series.
- New platform design is stylish and user-friendly.
- Enhanced Easy-Breathe motor is exceptionally quiet, making it easy to integrate into the patient's (and bed partner's) lifestyle.
- Color LCD interface with intuitive menu and push-and-turn dial improves ease of use.
- Offers compliance management solutions that allow patients and clinicians to monitor therapy.

ResMed S8 Elite™ II

- Premium CPAP device in ResMed's S8 Series II.
- Compact design with travel-friendly options and remote downloading capabilities.
- Data card included for easy two-way data transfer.
- Whisper-quiet operation.
- Expiratory pressure relief (EPR™) with Easy-Breathe technology enhances breathing comfort.
- Usage-based compliance download available for accurate patient monitoring.

ResMed S8 Escape™ II

- Whisper-quiet operation.
- Expiratory pressure relief (EPR™) with Easy-Breathe technology enhances breathing comfort.
- Data card included for easy two-way data transfer.
- Compact design with travel-friendly options and remote downloading capabilities.

ResMed C-Series Tango™

- Quiet and easy to use.
- Optional humidification.
- Disposable water chamber.

F&P ICON™ Premo

The Premo is a premium fixed-pressure CPAP with full efficacy and reporting software.

- ThermoSmart™ - More humidity, less discomfort
- InfoSmart™ - More communication. More results.
- Customizable AlarmTunes™

F&P ICON™ Novo

The Novo is a standard fixed-pressure CPAP for those patients who require basic compliance reporting.

- ThermoSmart™ - More humidity, less discomfort
- InfoSmart™ - More communication. More results.
- Customizable AlarmTunes™

InfoSmart™ Technologies

- InfoSend™ View: The patient can relay sleep data from the display screen of the device, which can then be verified using the F&P Infosmart™ software.
- SmartStick™: Data download and setting adjustments can be made within F&P Infosmart™ via the SmartStick™.

Fisher & Paykel SleepStyle™ 600 Series CPAP

- ThermoSmart™ Technology delivers optimal humidity and patient comfort for better sleep.
- ThermoSmart™, with its unique heated breathing tube, delivers higher, customized humidity levels, independent of room temperature changes.
- ThermoSmart™ also prevents condensation to ensure continuously effective pressure delivery.

Fisher & Paykel SleepStyle™ 240 Series CPAP

- The SleepStyle™ 240 Series CPAP offers a range of truly integrated CPAP devices with Performance Monitoring capability and removable media.
- Efficacy data (AHI/Leak, HC244 model)
- Ambient Tracking PLUS™ patented technology for auto-adjusting humidification.
- SmartStick™ Technology to allow cost-effective download of patient treatment data via removable media or connection to SmartStick™Net.

ResMed S9 AutoSet™

- Premium APAP device in ResMed's S9 Series.
- New platform design is stylish and user-friendly.
- Enhanced Easy-Breathe motor is exceptionally quiet, making it easy to integrate into the patient's (and bed partner's) lifestyle.
- Color LCD interface with intuitive menu and push-and-turn dial improves ease of use.
- AutoSet technology continually monitors breathing, adapting breath-by-breath to always deliver the lowest therapeutic pressure.
- Combines intelligent algorithm with Easy-Breathe expiratory pressure relief (EPR™) to dynamically adjust pressure for maximum comfort.
- Central sleep apnea (CSA) detection differentiates between obstructive and central apneas to ensure optimal therapy.
- Offers compliance management solutions that allow patients and clinicians to monitor therapy.

F&P ICON™ Auto

The Auto combines all features and technologies into one unit to provide the most flexibility for patient management and inventory control.

- ThermoSmart™ - More humidity, less discomfort
- SensAwake™ - Responding to waking moments
- InfoSmart™ - More communication. More results
- Customizable AlarmTunes™

InfoSmart™ Technologies

- InfoSend™ View: The patient can relay sleep data from the display screen of the device, which can then be verified using the F&P Infosmart™ software.
- SmartStick™: Data download and setting adjustments can be made within F&P Infosmart™ via the SmartStick™.

Fisher & Paykel SleepStyle™ 200 Auto Series CPAP

- The SleepStyle™ 200 Auto offers a range of truly integrated CPAP devices with Performance Monitoring capability and removable media.
- Efficacy data (AHI/Leak)
- SensAwake™ Technology senses the critical awake state of patients and reduces the pressure to facilitate the return to sleep
- Ambient Tracking PLUS™ patented technology for auto-adjusting humidification.
- SmartStick™ Technology to allow download cost-effective download of patient treatment data via removable media or SmartStick™Net.

ResMed VPAP™ ST

- Simplified standard setting menu.
- Vsync automatic leak management.
- TiControl (Ti max/min).
- Adjustable exhalation comfort.
- Auto-adjusting bilevel pressures.
- Compact S8 design is ideal for travel or home use.
- AutoSet™ technology.
- Easy-Breathe pressure delivery.

ResMed VPAP™ Adapt SV

- Treats complex sleep apnea syndrome and CSA.
- Normalizes breathing, completely suppressing CSA and/or Cheyne-Stokes respiration in heart failure patients.
- May improve sleep architecture (the amount of time the patient spends in a slow-wave and REM sleep increases).
- Adapts to a patient's ventilatory needs on a breath-by-breath basis.
- Ensures pressure support is synchronized to the patient's own breathing pattern, maximizing comfort.

ResMed VPAP™ S

- Compact S8™ design is ideal for travel or home use.
- Nearly silent therapy with ResMed's exclusive Easy-Breathe motor.
- Features Vsync™ leak management algorithm and TiControl™ breath synchronization control.
- Rich data options and a built-in ResScan™ data card.

ResMed VPAP™ Auto 25

- Simplified standard setting menu.
- Vsync automatic leak management.
- TiControl (Ti max/min).
- Adjustable breath trigger/cycle.
- 12V DC input (via converter).
- Auto-adjusting bilevel pressures.
- Compact S8 design.
- AutoSet technology.
- Easy-Breathe pressure delivery.

ResMed VPAP III ST-A

- Offers a full range of clinician- and patient-friendly alarms.
- Adjustable trigger and cycle thresholds.
- Adjustable alarms for flexible monitoring.
- Wider pressure range (3-30 cm H₂O).

ResMed VPAP™ III Bilevel

- Vsync™ algorithm maintains synchronization, even with leaks.
- TiControl™ feature optimizes inspiratory time control.
- Variable-speed motor and rise time technology for more comfortable pressure and flow profiles for better treatment tolerance.

Humidifiers

ResMed H5i™

- Heated humidifier integrates seamlessly with the S9.
- Offers Climate Control system that intelligently adapts to environmental conditions to provide optimal humidity and prevent rainout.
- Intuitive and easy to use.
- Available with a standard or cleanable water tub.

ResMed H4i™

- Seamlessly integrates with ResMed's full S8 and S8 II platform devices.
- Fliptop lid design and optional water chamber make it easy to clean and refill.
- High volume capacity (390 mL).
- Long-lasting scratch resistance.

ResMed HumidAire 2i™

- Full integration with all VPAP III devices.
- Warm-up mode.
- Large dial for easy adjustment.

Fisher & Paykel HC150 Heated Humidifier

- The HC150 is a stand-alone heated humidifier that can be used with any CPAP or Bi-Level device on the market.
- Ambient Tracking™ technology automatically compensates for changes in room temperature to minimize rainout potential in the CPAP tubing.

Masks

ResMed Swift™ FX

- Minimal design reinforces sense of freedom.
- Unprecedented softness, simplicity and stability.
- Flexible, fluid form follows facial contours and user movements.
- Promotes early therapy acceptance.
- Intuitive, virtually instant fitting.
- Stable performance, even at higher pressures.

ResMed Swift™ LT

- Light touch with no forehead support is extremely lightweight (2.3 oz).
- Flexible pillow base and patented rotating barrel allow user to customize the best seal.
- Quiet vent design.
- Flexible lightweight tubing.
- Headgear with soft buckle.
- Headgear stability arms.
- Ideal for side sleeping.

ResMed Swift™ LT for Her

- First mask designed specially for women.
- Light touch with no forehead support is extremely lightweight (2.3 oz).
- Optional soft wraps add comfort and an extra defense against facial marks.
- Whisper-quiet comfort at 25 dBa.
- Adjustable backstrap can be worn over or under the hair to accommodate a wide range of hairstyles.
- Comes in a soft, feminine print and light blue color.

ResMed Mirage™ SoftGel

- Unique vent design diffuses air quietly and gently.
- DoubleGel™ cushion's outer layer provides soft comfort while inner blue gel layer maintains stability and support.
- Combination of Mirage dual-wall cushion with DoubleGel cushion makes fitting simple and intuitive.
- Adapts to individual facial contours.
- Part of ResMed's ConvertAble Series, offering a choice of two different cushions on one frame.

ResMed Mirage Activa LT™

- Compact ActiveCell™ technology automatically seals for quick fitting and accommodates for movement and therapy pressure changes.
- Amazingly light, quiet and diffused.
- Fits a wide range of users.
- MicroFit dial fine-tunes fit to suit each user's profile.
- Unique design diffuses air quietly and gently away from patient and bed partner.
- Slender frame design and compact cushion for improved field of vision.
- Part of ResMed's ConvertAble Series, which offers choice of two cushions - Activa LT or SoftGel - on one frame.

ResMed Mirage Micro™

- MicroFit dial fine-tunes fit to suit each user's profile and is easily adjusted with one hand.
- Mirage dual-wall cushion fits a wide range of users.
- Streamlined forehead support.
- Quiet vent design.
- 360° elbow rotation.
- Deep mask frame design accommodates a greater range of nasal structures.
- Fewer mask parts for easy cleaning and assembly.

ResMed Mirage Quattro™

- Fourth generation full face mask that provides superior seal and personalized comfort.
- Mirage™ dual-wall cushion with spring air technology accommodates movement during sleep (including jaw drop).
- MicroFit dial allows users to easily adjust for head support for personalized fit and comfort.
- Improved vent design reduces noise.
- 4 sizes (XS, S, M, L).

Masks

ResMed Mirage Liberty™

- Ideal for patients seeking a comfortable alternative to conventional full face masks.
- Unobtrusive design offers free field of vision.
- Dual-wall Mirage cushion technology.
- Dual-wall nasal pillows with trampoline action.
- Reduced inventory (two product codes).
- Ships with three pillow sizes for greater fit range.

ResMed Mirage Kidsta™

- First FDA-cleared system (with VPAP III ST-A) in the United States for treating pediatric OSA patients.
- Open design offers clear field of vision.
- Dual-wall cushion reduces pressure on small noses.
- Click-on parts are easy to manage.
- Convenient set-and-forget headgear minimizes the need for continuous adjustment.

Fisher & Paykel FlexiFit™ 405 Nasal Mask

- The FlexiFit™ 405 with a 360° swivel and a simple 4 strap headgear.
- FlexiFit™ Technology to automatically adjust and accommodate a wider range of face shapes.
- Breathable headgear which is cool, lightweight and comfortable.
- The FlexiFit™ 405 is packaged with two sizes to provide a complete Out-of-Box solution.

Fisher & Paykel FlexiFit™ 406 Petite Nasal Mask

- The FlexiFit™ 406 Petite Nasal Mask offers an over-the-nose mask solution specifically designed to fit finer featured faces.
- The Petite design is small, light and easy to use.
- FlexiFit™ Technology provides a greater range of movement at the nasal bridge, simplifying the fitting process while improving the seal and comfort.
- The unique Glider™ Strap allows freedom of movement while maintaining a seal mechanism for maximum comfort and stability.
- The Stretchgear™ Headgear is breathable, maximizes comfort and minimizes facial pressure during head movement.
- This mask comes as an Out-of-Box Solution fully assembled and ready for use.

Fisher & Paykel Zest™ Nasal Mask

- FlexiFit™ Technology provides a greater range of movement at the nasal bridge, simplifying the fitting process while improving the seal and comfort.
- Easy-Clip Silicone Seal allows one-step connection or removal of seal for quick and easy cleaning.
- Variable Thickness Silicone (VTS™) provides an ultra-soft fit for improved sealing and comfort.
- Stretchgear™ Headgear is breathable, maximizes comfort and minimizes facial pressure during head movement.
- The unique Glider™ Strap provides freedom of movement while maintaining a seal.
- Designed and contoured using the F&P Anthropometric Database.
- Available in three sizes: Zest™ Petite, Zest™ and Zest™ Plus.
- The Zest™ fits 80% of normal population (according to the Anthropometric Database, while the Zest™ Petite and Zest™ Plus mask fit the remainder of the population.

Fisher & Paykel FlexiFit™ 407 Nasal Mask

- Developed using our anthropometric database of thousands of facial contours, the FlexiFit™ 407 provides a better fit and superior comfort.
- Fits a majority of your patients right out of the box.
- FlexiFit™ Technology provides a greater range of movement at the nasal bridge, simplifying the fitting process while improving the seal and comfort.
- The unique Glider™ Strap allows freedom of movement while maintaining a seal.
- The Stretchgear™ Headgear is breathable, maximizes comfort and minimizes facial pressure during head movement.

Fisher & Paykel FlexiFit™ 431 Full Face Mask

- The FlexiFit™ 431 Full Face Mask has an Under-Chin design and crown strap providing extra stability and maintains a secure fit even with jaw movement.
- FlexiFit™ Technology provides a greater range of movement at the nasal bridge, simplifying the fitting process while improving the seal and comfort.
- The unique Glider™ Strap allows freedom of movement while maintaining a seal.
- Easy-Release Strap allows simple removal of the mask every time.
- "Fit and Forget" headgear ensures no ongoing adjustments are required.
- The FlexiFit™ 431 is packaged with all necessary sizes in one box Reducing your inventory.

Fisher & Paykel FlexiFit™ 432 Full Face Mask

- The FlexiFit™ 432 is our second generation Full Face Mask incorporating a soft Foam Cushion that works with the highly contoured silicone seal to provide improved seal and comfort.
- Simple one-step auto-adjusting fitting using the FlexFit™ technology.
- The universal frame size allows seals to be interchangeable.
- The unique Glider™ Strap allows freedom to movement while maintaining a seal.
- Easy-Release Strap allows simple removal of the mask every time.
- "Fit and Forget" headgear ensures no ongoing adjustments are required.
- Fully assembled in sizes S, M, L and XL.

Fisher & Paykel Opus™ 360 Nasal Pillows Mask

- The Opus™ 360 Nasal Pillows Mask is small, quiet and superbly comfortable, offering unprecedented freedom.
- "Off-the-lip" Pillows designed for maximum comfort.
- The slim-line design allows for almost any sleeping position without mask displacement.
- Its innovative 360-degree pivoting ball-and-socket elbow provides greater versatility.
- Anatomically designed Silicone Pillows.
- The Opus™³⁶⁰ Nasal Pillows Mask comes as an Out-of-Box Solution, fully assembled and ready to use with alternative sizes of Silicone Pillows.

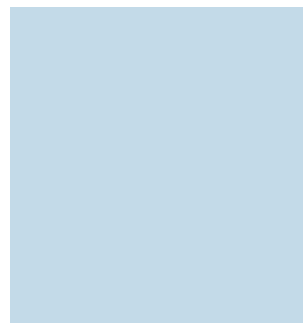

Fisher & Paykel Oracle™ 452 Oral Mask

- The Fisher & Paykel Healthcare Oracle™ was the first ever developed oral mask, a milestone in interface design.
- The next generation Oracle™ has exciting refinements that improve the patient experience, for ease of use and ease of seal.
- A new symmetrical design means the mask is always correctly fitted while the infinitely adjustable rotating dial allows for a personalized fit to provide greater comfort and simplicity.
- The Oracle™ 452 is the ideal solution for patients who are obligate mouth breathers, or have difficulty tolerating traditional nasal CPAP therapy.

Fisher & Paykel Forma™ Full Face Mask

- The new Forma™ Full Face Mask forms a superior seal and provides even more comfort with a greater range of movement through the active contouring of its new FlexiFoam™ Cushion.
- The T-Piece adds stability to the stylized mask base.
- Simple one-step auto-adjusting fitting using the FlexiFit™ technology.
- The universal frame size allows seals to be interchangeable.
- The unique Glider™ Strap allows freedom of movement while maintaining a seal.
- Easy-Release Strap allows simple removal of the mask every time.
- Fully assembled in sizes S, M, L and XL.
- The M & L sizes have been packaged together to give you the best chance of fit (80%) while reducing your inventory.

Screening/Diagnostics

Apnea Link™ Plus

- Type III home sleep testing diagnostic device.
- Features effort belt with EasySense respiratory effort sensor.
- Enhanced recorder light status and improved Start/Stop button.
- Simple, easy-to-use component connectors.
- Same robust design as ApneaLink.
- Differentiation of apneas leads to clearer diagnosis and more accurate, effective reports.
- Detects Cheyne-Stokes respiration.
- New prescription page streamlines process for healthcare professionals.
- AHI graphic and risk indicator can highlight either AHI or RI.
- Configurable analysis parameters allow for the adjustment of obstructive and central apnea thresholds.
- Five measurements of oxygen saturation allow for accurate billing documentation.

ResMed ApneaLink™

- Cost effective, simple to use sleep-screening device that monitors airflow using a nasal cannula.
- Identifies and quantifies apneas, hypopneas, flow limitation, and snoring.
- Pulse oximeter provides two additional channels of information: pulse and pulse oximetry.
- Automatically analyzes and derives AHI, flow limitation, snoring and oxygen desaturation index.
- Auto-generates a simple, easy-to-interpret report.
- User-friendly device can be used in the patient's home.
- Identifies intra-hospital and pre-operative patients at risk for OSA, thereby reducing poor outcomes and liability.
- Enables referral sources to easily and objectively determine whether to refer a patient for further evaluation.
- Improves patient care by providing quicker access to the treatment care path.

Braebon MediByte (distributed by Fisher & Paykel)

- Miniature 12-channel and 6-channel recorders for diagnosing and recording snoring and sleep apnea.
- Small, lightweight and durable.
- Records multiple nights.
- Exceeds new Home Sleep Testing Guidelines.
- CPAP compatible (therapy monitoring and home titration).
- Easy to use and download.

ResMed ResTraxx™

- First of its kind for wireless patient monitoring.
- Enhances compliance and quality of patient care.
- Streamlines patient management and maximizes productivity.
- Easily identifies noncompliant patients.
- Simplifies data captures (no need for phone lines, modems, cards and readers).
- Access patient information any time, virtually anywhere.

ResMed ResLink™

- Makes data management simple and cost-effective.
- Data includes oximetry, pressure response, leak, apneas/hypopneas, minute ventilation, flow limitation, snore, SpO₂ and pulse rate.
- 32 MB SmartMedia™ card simultaneously stores a wider data selection.
- Versatile and easy to use.

ResMed ResScan™

- Uses a single software program for all ResMed treatment devices.
- Transports data easily, either via the ResScan data card or ResLink module.
- Allows you to use the level of monitoring your patients need (standard, nightly, advanced).
- Unique Start screen guides you through the software.
- Compatible with all treatment devices.
- Customizable view of onscreen data.
- Flag patient follow-ups and review them at a glance on the Start Screen.

Fisher & Paykel SmartStick™ Net

- The SmartStick™ Net USB device is pre-programmed with an application that will send patient sleep data to a secure online database for you.
- SmartStick™ Net automatically calculates and identifies compliant and/or non-compliant patients with a color-coded "dashboard" layout to assist with patient management.
- Sleep data retrieval is easy and cost effective. Sleep data can be automatically transferred to the SmartStick™ Net website via a computer's USB port and the Internet.
- SmartStick™ Net has no need for card readers or phone lines. The patient simply places their SmartStick™ Net into their computer and the data will be sent via the internet to the SmartStick™ Net website. One simple click on the dashboard will provide you with the required insurance documentation.
